FORWARD

Jack and Susan (Fred) Webb have been very good neighbors to the German Reformed Cemetery for the last 4 years. During that time, they have mapped the cemetery, found Revolutionary, War of 1812 and Civil War grave markers. They have generously worked on cleaning the markers, discovering backgrounds and history and put up a site map of the graves and where to find them.

Grace United Church of Christ (originally Grace German Reformed Church) could not have asked for better neighbors and friends than the Webbs. As Designated Pastor of Grace Church, I express the gratitude of the Congregation past and present for this marvelous work they have completed. As Jack Webb says, "That cemetery is a monument to Greencastle history." Thank you for the work of love you have done and continue to do to preserve our little piece of Greencastle history.

Blessings—

Rev. Brenda M. Clark

SECTION I: Introduction & History

This book includes the research into the graves that are found at the German Reformed Cemetery, adjacent to and South of 131 S. Carlisle St., Greencastle, PA. This data has been recovered and footnoted in this document.

In 2015, this Cemetery revitalization project became a family labor of love for Jack Webb and his wife, Susan Hankey Webb. At that time, there seemed to be no data available for the hundreds of graves in the German Reformed Cemetery on South Carlisle Street. After a year of research, we have found quite a bit of data on the Cemetery, but it was interspersed in books, manuscripts, and computer discs throughout the USA. In addition, none of these compilations were complete and all added extra names or differing data. The basic manual for this compilation is Tombstone Inscriptions, Franklin County PA Vol 5 Greencastle Cemeteries, Pflueger, 1988, Greencastle, PA. **Note:** John F. Pflueger, Kittochtinney Historical Society, Chambersburg, PA. Pflueger's data is based on a 1971 examination of the gravestones. All his gravestone names have been added to this list as well as others found in many different documents. This book is a work in progress and all names and pictures have been added to the Find a Grave website (www.findagrave.com), and Ancestry.com, and a map of the Cemetery has been completed. This book will be distributed in paper and digital format to three-ring binder as per Section X(b) Distribution. Changes will be distributed when available per Section X.

Statistics:

Oldest grave: 1791 Elizabeta Weider, wife of Christofel Weider
(possibly Widner, cofounder of cemetery)

Last Burial: 1890 Jacob Pensinger

Of the 300+ graves; over 110 are for children under the age of 18.

HISTORY OF GERMAN REFORMED CEMETERY:

1741: Antrim Township was formed. Today Antrim Township surrounds Greencastle which is a separate municipality.

1748: Earliest mention of German Reformed Congregation in Greencastle.

1782: The town of Greencastle was laid out, plots/lots of land were sold in a lottery and the town founded.

1786, Nov 29: Land for cemetery and church was sold by John Allison for 5 shillings to Henry Sites (buried in this cemetery), Henry Stall, Christopher Widner (wife buried in this cemetery), Jacob Zacharias.

1786: German Reformed Cemetery established

1787: Log union church was built with the Lutheran (today this is Evangelical Lutheran Church) and German Reformed Church in southwest corner of the property. The term "Union" denotes two religious groups using a common building for separate services.

1792: The Lutherans left the union church and built their own church. Rev J. Rothrauff was the Lutheran minister from 1805-1809 and he also ministered to Apple's union church, Thurmont, Md.

1808-1853: New, brick German Reformed church was built and services continued in the front northeast corner of the property along S Carlisle St.

1853 Map of Greencastle: the oldest known map of Greencastle shows the German Reformed Church still at the front of the Cemetery at S. Carlisle St. (See Section II)

1853: New church built on Baltimore Street and eventually the German Reformed Church became the Grace United Church of Christ (UCC), 128 E. Baltimore St., Greencastle, PA.

1855: Demolished old brick church on Cemetery grounds.

1858 Map of Greencastle shows the German Reformed Church moved to its present 128 E. Baltimore St.

1863 Map of Greencastle shows the German Reformed Church as in the 1858 map, but now shows the name of the cemetery as the German Reformed Cemetery on S. Carlisle Street.

1868 Map of Greencastle, known as the Atlas of Franklin County Pennsylvania, by DG Beers, 1868, similar to 1863 map, but most importantly, it is the only map known with the original lot numbers used in the 1782 lottery of land; the German Reformed Cemetery sits on Lot #201 and #202; each 60 ft x 250ft. (See Section II)

HOW TO LOCATE A GRAVE in the German Reformed Cemetery, S. Carlisle Street, Greencastle, PA (GPS: N39.788, W-077.729): The cemetery was photographed by Google Earth in 2016 and the photo was cropped to just show the cemetery and the streets around it (see Section II for this map). The Cemetery is situated so that on the east is South Carlisle St.; to the west is an alley called South Elm St.; to the north is an unnamed alley with a house and property at 131 S. Carlisle St. and another house and property line is to the south of the Cemetery on S. Carlisle St.

For mapping purposes, the Cemetery has been divided into 12 Sections (labeled A to L) running from North to South. It has been further divided East to West by 6 Rows (labeled 1-6). Therefore, the cemetery is divided into a grid of 75 **Squares**, each approximately 22 ft x 22 ft. Each grave has been numbered first with Row number and then with a Section number and then a digit for the number of each grave in that Square. Therefore, if you look at Section III or IV (in this document) for the grave of Charlotte Hammill, wife of A.K Hammill, you will see that she is #88 in the list and has a grave number of 1A-3: (Square 1A and more specifically: Row 1, Section A and Grave 3).

The starting point for this grid system is the corner of S. Elm Street and the unnamed alley (between the cemetery and 131 S. Carlisle St.). Square 1A is the first square on the corner of Elm and the unnamed alley. Square 2A; is the square adjacent to S. Elm St. and two squares South from the starting point, etc. If you are standing on S. Carlisle St, looking West; the starting point for Sections and Rows is in the back right corner. See Section II in this document for a map.

In Section III of this document; you will find an alphabetized list of names with their associated grave locations if found. This Section has been made into a sign which has been installed on the backside of the German Reformed Cemetery sign on S. Carlisle St., Greencastle, PA.

In Section IV of this document, continuing with our example of finding grave 1A-3: you will find under Row 1, and then Sec A, a map of the graves in Square 1A. Look at the map of Square 1A and it will show where grave 3 is located.

Helpful hints for understanding this document:

Note: If you do not know the location of the grave; please see Section III which includes an alphabetized listing of names cross-referenced to their grave location. **Note:** all graves have been loaded into the Find A Grave website (www.findagrave.com) and onto an Ancestry.com public tree. In Find A Grave, you must search for a particular name with as much information as you have (or search for the German Reformed Cemetery, Greencastle, PA for a list of all graves in the Cemetery). If using Ancestry.com, you can find the name in the German Reformed Cemetery family tree.

After individual gravestones were photographed and entered into the computer, it was read to determine the name of the person interned. Due to the condition of some of the headstones, very little data can be read. However, with the assistance of Microsoft Word "Find" command; you can search for one word quickly and if that word, i.e. age or death date, has only been used on the one gravestone you are reading; then you have found a name-to-stone match. **The words/numbers/letters that are read off the gravestone are highlighted in Red in the data below and, if confusing, a (S) is included to reference the Stone reading.**

All graves at **Cedar Hill Cemetery** older than 1870 were moved there from other places. Some came from the German Reformed Cemetery. **Note:** Cedar Hill Cemetery records are maintained by Zimmerman Funeral Home, South Carlisle St, Greencastle, PA.

- * an asterisk by the name and in LOCATION denotes that their gravestone was stacked in the rear SW corner of the cemetery and, if found, is now stored in the shed at the rear of the cemetery. Pflueger's (1988) research also listed what footstones were stacked in the back of the Cemetery and, if found, are now stored in the shed (or reestablished in the Cemetery at its Logical Location (LL)). The footstone replacement into the cemetery has just been started.
- "CAL" is a calculated date based on age and death or birth from Family Tree Maker calculator.
- RED: a red number in the first column denotes that the person is a **veteran** or wife of a veteran.
F: below the red veteran number denotes a **Flag** has been put at the grave.

Footnotes: (used in Section IV Maps/Research below.)

Alphabetic footnote abbreviations:

A: a manuscript, 4 pages in length, located at the Antrim Allison Museum, in 3-ring Binder, no source, no date. It will be referred to as the "Antrim Group" document. It appears to have been compiled by:

Mrs. Beulah S. Clippinger, Miss Pearl Rhodes, and Miss Erma Gilland.

This author believes Miss Gilland is the "EG" used in 1935 Veterans cards, i.e. George Shrader's veteran's card.

These three woman's names appear at the end of the 4-page document, as though they were the authors. Found in Museum 2016 by Jack and Susan Webb.

1A: only listed in Antrim Group listing and not in Pflueger 1988 research.

An: data found at www.Ancestry.com

NOTE: *In the 1878-1893 Burials, there are many burials listed that are not found today in the German Reformed Cemetery. The confusion is that in the Grace UCC Church Records 1878-1892 Burial records, where the Place of Burial is recorded; there is listed a “Greencastle Cemetery” and a “Ref Ch graveyard”. I believe the Ref Ch graveyard is the Cemetery on South Carlisle that is the subject of this book. However, there are many graves marked for the Ref Ch Graveyard that are not represented with a headstone in the German Reformed Cemetery. Either the headstones were removed, or the people were not buried there, or the headstone is still buried/hidden in the Cemetery. These people are shown in Sec III and VII Unidentified Gravestones and have a RC# by their names.*

CHS: In 2017, the Chambersburg Historical Society donated a hard copy of their records for the German Reformed Church that is included in the records given to the Grace United Church of Christ, Greencastle, the current name for the original German Reformed Church of Greencastle:

Membership: 1818-1864

Baptismal: 1818-1843; (one 1840 and no 1841)

***Marriages: 1896-1920**

***Deaths: 1896-1920**

***Note:** *these marriages and deaths do not include people buried in this Cemetery because the last burial in the German Reformed Cemetery was in 1890.*

S: denotes that the words/letters I have observed to be written on stone

U: Civil War veteran; Union soldier

W. War of 1812 veteran

Numerical Footnotes:

8: possible typographical error

11 Note, possible typographical error by Pflueger; for example: **d** for death should be **b** for birth.

The dates shown are when they lived in Hagerstown and were the pastor at Zion Reformed Church in Hagerstown AND listed as the minister in Greencastle. They were both traveling ministers visiting Greencastle as part of their charge. Hagerstown, MD is a good place to start the records search but they also served St Pauls in Clear Spring, MD; Mercersburg, PA; Chambersburg, PA; Grindstone Hill, PA; Funkstown, MD, Troxels, Besores, Millerstown, Emmitsburg, MD, and Apples Church, MD.*

Note: *I have been told that microfilm 382822 Zion German Reformed Church and East Conococheague Church Records, 1818-1864 can be viewed at the local Family Search Libraries (ie Waynesboro, PA) or the Family History Library in Salt Lake City, Utah, operated by the Church of Jesus Christ of Latter-day Saints (LDS Church)*

Note: Below are the changes made to the Cemetery that have not been changed in the Headstone sign at the front of the Cemetery.

***1: Note:** #7 Apple grave moved from shed to logical location.

***2: Note:** clerical error: 323, at 3H-11 was incorrectly shown on the location sign in the graveyard as 3H-10

***3: Note:** recent research: #83 John B Hade has not been found, the top that I thought was his was actually the top of his brother's headstone #85 David B. Hade, LL=3G-9 and was incorrectly shown on the location sign in the graveyard as being found.

***4 Note:** recent research and headstone placement: #312 Peter Weyant incorrectly shown on the location sign in the graveyard as Shed; the headstone was moved to beside his wife and since she was placed East to West; Peter's headstone was also placed East to West (at 6A-2).

***5: Note:** clerical error, 1C-4 listed twice on sign; one of these should be 2C-4

***6: Note:** clerical error; should also have listed 4F-1 as unidentified headstone

***7: Note:** clerical error; should have also listed 1i-1 as an unidentified headstone.

***8: Note:** Jno Buxton was a Union soldier.

***9: Note:** George Herr confirmed as a Herr and not a Hess per descendant interview.

SECTION VI-A: HEADSTONES IN STORAGE

Note these headstones are stored in the Shed at the back of the property until they can be properly installed in the Cemetery. Of course, there is no way to determine where these graves were actually located, therefore the new location of the found headstones will be beside relatives, if any, in the Cemetery. Stones with * in Column 2 are the ones that Pflueger listed as stacked in the back of the cemetery in 1977 and have been found. LL= shows the "Logical Location" where they will be or have been reburied/erected closest to nearest relatives or, if no relatives, in square 5B near the shed at the back of the Cemetery.

SECTION VIII Veterans Listed – by location row/section

Note: All Veterans and wives of veterans who are not buried in the German Reformed Cemetery are honored in our cemetery and have a Flag (F) at their headstone. On the “square” maps, all veterans have a “V” shown with a subscript showing in which war they served. Thanks to the Greencastle American Legion Post 373, flags are repaced on all veteran graves and they donated the War of 1812 markers. The Franklin County Veterans affairs office, Chambersburg, donated the Revolutionary & Civil War markers.
