Epitaph:

Cemeteries are interesting, they are worth visiting and they're worth studying. If we take the time to listen to the stories they might tell us, we have a lot to learn.

Richard Velt

Visiting a cemetery is an opportunity to discover the history of an area. Cemeteries are a monument to a region or a community history. They are a forever memorial to patterns of immigration, religious rituals, diseases and disasters.

FORWARD

On Easter Sunday 2023 before daybreak in the cold frost, a group of about 20 church members stood towards the front of the German Reformed Cemetery...on the flat, grassy ground where the second church building was once constructed. There, we proclaimed the resurrection of Christ and also gave thanks for our church ancestors who guided the church for its past 275 years. It was a time of real connection and communion with those who had gone before us. This is just one reason to know and care about our German Reformed Cemetery. It is one example of the value of the cemetery.

I am grateful to Jack Webb and Susan Hankey-Webb, our good neighbors who continue to care for the physical property (like stones and monuments)...but even more so...for how they take care of the stories of “who these approximately 300 people were...in their time and age.” In our age...when many people are interested in their ancestry...and also have open access to the World Wide Web, sharing this knowledge proactively is immensely useful and practical to countless others.

May this updated edition be helpful to many!

PREFACE:

Edition 1 of this book **German Reformed Cemetery, Est 1786, Greencastle, Franklin County PA, Tombstone Inscriptions**, was completed September 28, 2018. Work was started immediately on Edition 2 and was written as more headstones have been found, repaired, identified and recorded in this Edition. But, what makes Edition 2 special is the genealogy work that has been done about almost every person in the graveyard. This work ties together many of the people interred with grandparents, parents, in-laws, etc. It gives insight into the reason for placement of many of the graves that, at first glance, seem to be randomly placed in the cemetery. All the newly discovered relationships have been included in the Find A Grave website (www.findagrave.com) which has brought people throughout the USA to Greencastle to find their ancestors. To us, connecting a small child left buried here alone in the cemetery without their parents, who moved West for a new start, brings a great sense of satisfaction. These connections can be found in Edition 2 and in the Find A Grave website.

There is still more work to be done, such as repair of the remaining broken stones but mostly it is in erecting the headstones that are lying flat on the ground. There are about 20 of these (See Sec VII-c). These flat stones can be read quite well, but, lying flat, must be cleaned off yearly because, after a year or two, the grass clippings, etc., will cover the headstones to the point that you cannot find them. The real problem is that most of them require a base which has not yet been found. If the base is not underneath the stone, as some of the other repaired stones, I will have to do the labor-intensive process of making new bases out of concrete. These bases are discrete in that the modern concrete is hidden under the grass. About five of these have already been completed. Time will tell as to the completion date on these stones.

After a visit from the Shippensburg College Archeology Department, it appears our soil is not conducive to ground penetrating radar. Therefore, the only recourse for finding lost headstones will be a time-consuming, tedious survey of the cemetery with a ground-penetrating spike manually inserted every 6 inches throughout the entire Cemetery. This is probably my lowest priority as I have not even started on distributing the hundred or so footstones stored in our cemetery shed. The question of footstones bring modern day complications of mowing grass about the footstones. My first thought is to place the stored footstones behind each of the applicable headstones but this project is “down the road” – if anyone wants to see the stored footstone of their loved one, please contact me.

I would like to take this opportunity to thank the current parishioners of Grace UCC for their continued support of our efforts on preservation of the German Reformed Cemetery and for their maintenance of the grounds with mowing, tree maintenance and general cleaning.

I would also like to express my sincere appreciation to all the history lovers who generously contributed to the Grace UCC Cemetery Preservation Fund which allows for not only concrete base material and cleaning fluid but also the printing of this 2nd Edition of the Cemetery Book.

As with all genealogy, when researching in the early 1800s, it becomes very difficult to prove family connections. If there are any mistakes in these connections, the fault is mine and I would appreciate any feedback that can improve this Edition.

SECTION I: Introduction & History

This book includes the research into the graves found at the German Reformed Cemetery, South of 131 S. Carlisle Street, Greencastle, PA, at the intersection of South Carlisle Street and West Ziegler Lane (the name of the previously unnamed alley).

In 2015, this Cemetery revitalization project became a family labor of love for Jack Webb and his wife, Susan Hankey-Webb. At that time, there seemed to be no data available for the hundreds of graves in the German Reformed Cemetery on South Carlisle Street. After years of research, we have found quite a bit of data on the Cemetery, but it was interspersed in books, manuscripts, and computer discs throughout the USA. In addition, none of these compilations were complete and all added extra names or differing data. The basic manual for this compilation is Tombstone Inscriptions, Franklin County PA Vol 5 Greencastle Cemeteries, Pflueger, 1988, Greencastle, PA. **Note:** John F. Pflueger, Kittochtinny Historical Society, Chambersburg, PA. Pflueger's data is based on a 1971 examination of the gravestones. All his gravestone names have been added to our book, as well as others found in many different documents. This book is a work in progress and all names and pictures have been added to the Find a Grave website (www.findagrave.com), and Ancestry.com, and a map of the Cemetery has been completed. This book has been distributed in paper and digital format to the Greencastle Grace UCC Church, Greencastle Besore Library, Chambersburg Kittochtinny Historical Society Library, Hagerstown Library (Western Maryland Room), Hagerstown's Washington County Historical Society, Church of Jesus Christ of Latter-day Saints in Salt Lake City, UT, and the Pennsylvania Evangelical and Reformed Historical Society at the Lancaster Seminary Library in a three-ring binder and a DVD copy provided. Changes will be distributed when available per Section XI.

The copy of Edition 1 of this book is available at Family Search at Salt Lake City: go to <https://www.familysearch.org/search/catalog>; identification 3254256. As soon as possible, the Edition 2 will be added to their library.

The good news is that the book is most easily viewed online at: <http://www.graceuccgreencastle.com/>. Look at the top of the page; click on: "OUR RICH HISTORY" next, click on "German Reformed Cemetery." Next the German Reformed Cemetery page opens and it brings you to a paragraph: "**GERMAN REFORMED CEMETERY book, CLICK BELOW: GERMAN REFORMED CEMETERY, EST 1786, s. Carlisle St., Greencastle, Franklin County, PA; Tombstone Inscriptions, Locations of Graves & research of all Internments.**" Once you click the **Blue** words, you will download the entire book. It is best to be used on your laptop computer as there is a lot of data.

For you mobile phone users: on the same website, below the above mentioned procedure, are two QR codes (Quick Reference) to take you to the Find A Grave website for the German Reformed Cemetery. The first QR code will take you to the Cemetery site. When you scroll down, you will see every grave in the cemetery. The second QR code will take you directly to the map of the cemetery which will be invaluable when visiting here and searching for a particular grave.

FYI: Our cemetery is cataloged by the Pennsylvania Bureau of Historic Preservation—Cemetery, Harrisburg, PA. Our cemetery is listed in PA-Share under Entry Type: RESOURCE; Resource Number: 2019RE28050; Resource Name: German Reformed Cemetery; Resource Type: ABOVE GROUND; Above Ground Type: Cemetery.

Statistics:

Oldest grave: 1791 Elizabeta Weider, wife of Christofel Weider/Widner (cofounder of cemetery)

Last Burial: 1890 Jacob Pensinger

Total graves: 322 people interred (fewer gravestones-some headstones have multiple names.)

Children: there are over 110 are for children under the age of 18 – high infant mortality

Veterans:

Revolutionary War:	4 + 1 wife whose veteran husband is buried elsewhere.
War of 1812:	7
Civil War: Federal/Union:	5+ 5 wives whose veteran husbands are buried elsewhere
Unknown War	2 + 1 (cannot find which war they fought in?)

HISTORY OF GERMAN REFORMED CEMETERY:

1741: Antrim Township was formed. Today Antrim Township surrounds Greencastle which is a separate municipality.

1748: The earliest mention of our German Reformed congregation was in the Conococheague Settlement (later day Greencastle) when Rev Schlatter stayed overnight with Swiss born Jacob Snively and preached in Jacob's house, 2 miles west of present day Greencastle. His land was considered Conococheague Settlement. Ref: 23-27

1782: The town of Greencastle was laid out, plots/lots of land were sold in a lottery and the town founded.

1786, Nov 29: Land for cemetery and church was sold by John Allison for 5 shillings to Henry Sites (buried in this cemetery), Henry Stahl (son buried in this cemetery), Christopher Widner (SIC) Weider (wife buried in this cemetery), and Jacob Zacharias.

1786: German Reformed Cemetery established

1787: Log union church was built in a joint effort with the Lutheran congregation (today this is Evangelical Lutheran Church) and German Reformed Church on southwest corner of the property. The term "union" denotes two religious groups using a common building for separate services.

1792: The Lutherans left the union church and built their own church. Rev J. Rothrauff was the Lutheran minister from 1805-1809 and he also ministered to Apple's union church, Thurmont, Md.

1808-1853: New, brick German Reformed church was built in the front northeast corner of the property along S Carlisle Street intersection with the newly named alley: W Ziegler Lane.

1853 Map of Greencastle: the oldest known map of Greencastle shows the German Reformed Church still at the front of the Cemetery at S. Carlisle Street (See Section II)

1853: New church built on Baltimore Street and eventually the German Reformed Church became the Grace United Church of Christ (UCC), 128 E. Baltimore St., Greencastle, PA. Built by Capt. William McClure of Shippensburg for \$5,250.

1855: The old brick church was demolished on Cemetery grounds (some foundation still can be seen).

1858 Map of Greencastle shows the German Reformed Church moved to its present 128 E. Baltimore St.

1863 Map of Greencastle shows the German Reformed Church as in the 1858 map, but now shows the name of the cemetery as the German Reformed Cemetery on S. Carlisle Street.

1868 Map of Greencastle, known as the Atlas of Franklin County Pennsylvania, by DG Beers, 1868, is similar to 1863 map, but, most importantly, it is the only map known with original property lot numbers used in the 1782 lottery of land; the German Reformed Cemetery sits on Lot #201 & #202; each 60 ft x 250ft. (See Sec II)

HOW TO LOCATE A GRAVE in the German Reformed Cemetery, S. Carlisle Street, Greencastle, PA

(GPS: N39.788, W-077.729): The cemetery was photographed by Google Earth in 2016 and the photo was cropped to just show the cemetery and the streets around it (see Section II for this map). The Cemetery is situated so that on the east is South Carlisle St.; to the west is an alley called South Elm St.; to the north is a newly named alley W. Ziegler Lane (beside a house and property at 131 S. Carlisle St. and another house and property line is to the south of the Cemetery on S. Carlisle St.)

For mapping purposes, the Cemetery has been divided into 12 **Sections** (labeled A to L) running from North to South. It has been further divided East to West by 6 **Rows** (labeled 1-6). Therefore, the cemetery is divided into a grid of 75 **Squares**, each approximately 22 ft x 22 ft. Each grave has been numbered first with Row number and then with a Section letter and then a digit for the number of each grave in that Square. Therefore, if you look at Section III or IV (in this document) for the grave of Charlotte Hammill, wife of A.K.

Hammill, you will see that she is #88 in the list and has a grave number of 1A-3: (Square 1A and more specifically: Row 1, Section A and Grave 3).

The starting point for this grid system is the corner of S. Elm Street and W. Ziegler Lane, the alley (between the cemetery and 131 S. Carlisle St.). Square 1A is the first square on the corner of Elm and W. Ziegler Lane. Square 2A; is the square adjacent to S. Elm St. and two squares South from the starting point, etc. If you are standing on S. Carlisle St, looking West; the starting point for Sections and Rows is in the back right corner. See Section II in this document for a map.

In Section III of this document, you will find an alphabetized list of names with their associated grave locations if found. This Section has been made into a permanent display sign which has been installed on the backside (west-facing) of the German Reformed Cemetery sign on S. Carlisle St., Greencastle, PA to facilitate grave seekers.

In Section IV of this document, continuing with our example of finding grave 1A-3: you will find a page labeled Row 1, and then the page Sec A showing a map of the graves in Square 1A. Look at the map of Square 1A and it will show where grave 3 is located.

Helpful hints for understanding this document:

If you do not know the location of the grave; please see Section III which includes an alphabetized listing of names cross-referenced to their grave location. **Note:** all graves have been loaded into the Find A Grave website (www.findagrave.com) and onto an Ancestry.com public tree. In Find A Grave, you must search for a particular name with as much information as you have (or search for the German Reformed Cemetery, Greencastle, PA for a list of all graves in the Cemetery). Or, in Find A Grave; simply search on the sight using the memorial number given in Sec III for each person. If using Ancestry.com, you can find the name in the "German Reformed Cemetery" family tree.

After individual gravestones were photographed and entered into the computer, it was read to determine the name of the person interned. Due to the weathered condition of some of the headstones, very little data can be read. However, with the assistance of Microsoft Word "Find" command; you can search for one word quickly and if that word, i.e., age or death date, has only been used on the one gravestone you are reading; then you have found a name-to-stone match. **The words/numbers/letters that are read off the gravestone are highlighted in Red in the data below and, if confusing, a (S) is included to reference the Stone reading.**

- * an asterisk by the name and in LOCATION denotes that their gravestone was stacked in the rear SW corner of the cemetery as outlined in Pflueger's (1971) research. If the stone was found, it is now stored in the shed (or reestablished in the Cemetery at its Logical Location (LL)). The footstone replacement into the cemetery has just been started.
- "CAL" is a calculated date based on age and death date put into the Family Tree Maker calculator.
- RED: a red number in the first column denotes that the person is a **veteran** or wife of a veteran.
- **Bold Black** lettering denotes the headstone was found in the 1971 research done by Pflueger.
- Normal black lettering denotes the headstone was not mentioned by Pflueger.

Footnotes: (used in Section IV Maps/Research below.)

Alphabetic footnote abbreviations:

A: a circa 1935 manuscript, 4 pages in length, located at the Antrim Allison Museum, in 3-ring Binder, no source, no date. It will be referred to as the "Antrim Group" document. It appears to have been compiled by:

Mrs. Beulah S. Clippinger, Miss Pearl Rhodes, and Miss Erma Gilland.

This author believes Miss Gilland is the “EG” used in 1935 Veterans cards, i.e. George Shrader’s veteran’s card. Note: Grave # on Vet cards from unknown numbering system.

These three women’s names appear at the end of the 4-page document, as though they were the authors. Found in Museum 2016 by Jack and Susan Webb.

1A: only listed in Antrim Group listing and not in Pflueger’s 1988 Book, based on his 1971 research.

CH: monument at Cedar Hill Cemetery, Greencastle, PA opened circa 1870: The actual grave location could be at Cedar Hill or German Reformed Cemeteries. With two monuments; the deceased could have two separate Find A Grave (FAG) memorial numbers but the one with the grave is a memorial number and the one with no grave is designated a Cenotaph..

All graves at Cedar Hill Cemetery older than 1870 were moved there from other places. Some came from the German Reformed Cemetery. **Note:** Cedar Hill Cemetery records are maintained by at the Cedar Hill Cemetery office at the cemetery, Greencastle, PA. Note: be aware that there many Cedar Hill Cemeteries in Pennsylvania, always use the city after Cedar Hill to be precise or use **CH** to mean in Greencastle Cedar Hill Cemetery.

CHS: Chambersburg Historical Society, German Reformed Church Records: see list below under **RC** Records and, at the end of this introduction, is a summary of all known church records.

- Communion: 1877 – 1895, CIMG1292.jpg – CIMG1334

NOTE: *In the 1878-1893 Burials, there are many burials listed that are not found today in the German Reformed Cemetery. The confusion is that in the Grace UCC Church Records 1878-1892 Burial records, where the Place of Burial is recorded; there is listed a “Greencastle Cemetery” and a “Ref Ch graveyard.”*

I believe the “Ref Ch graveyard” is the Cemetery on South Carlisle that is the subject of this book. I believe “Greencastle Cemetery” refers to Cedar Hill Cemetery, started in about 1870-1880 in Greencastle. However, there are many graves I marked “RC” for the Ref Ch Graveyard that have not been found in the German Reformed Cemetery nor In Cedar Hill Cemetery. It is quite a coincidence that the 21 graves listed by Rev Sykes cannot be found anywhere? These people are shown in Sec III and VII-b Unidentified Gravestones and have a RC by their names. More research is required.

SUMMARY of German Reformed Church Records researched for this document::

BIRTHS/BAPTISM: 1818-1840, few 1842-43, 1850-1877, 1877- 1893:

Missing records: 1786-1817, 1841, 1844-1849, 1894 to date.

MARRIAGES: 1850-1875, 1877–1892, 1896-1920;

Missing records: 1786-1849, 1876; 1893-1895, 1921 to date.

DEATHS/BURIALS: 1851-early 1853, late 1855-1863, 1877 –1893, 1896-1920

Missing records: 1786-1850; late 1853-early 1855-1864-1876; 1894-1895, 1921 to date.

MEMBERSHIP: 1818-1864, 1850-1874, 1877 – 1894,

Missing records: 1786-1817, 1875-1876, 1895 to date.

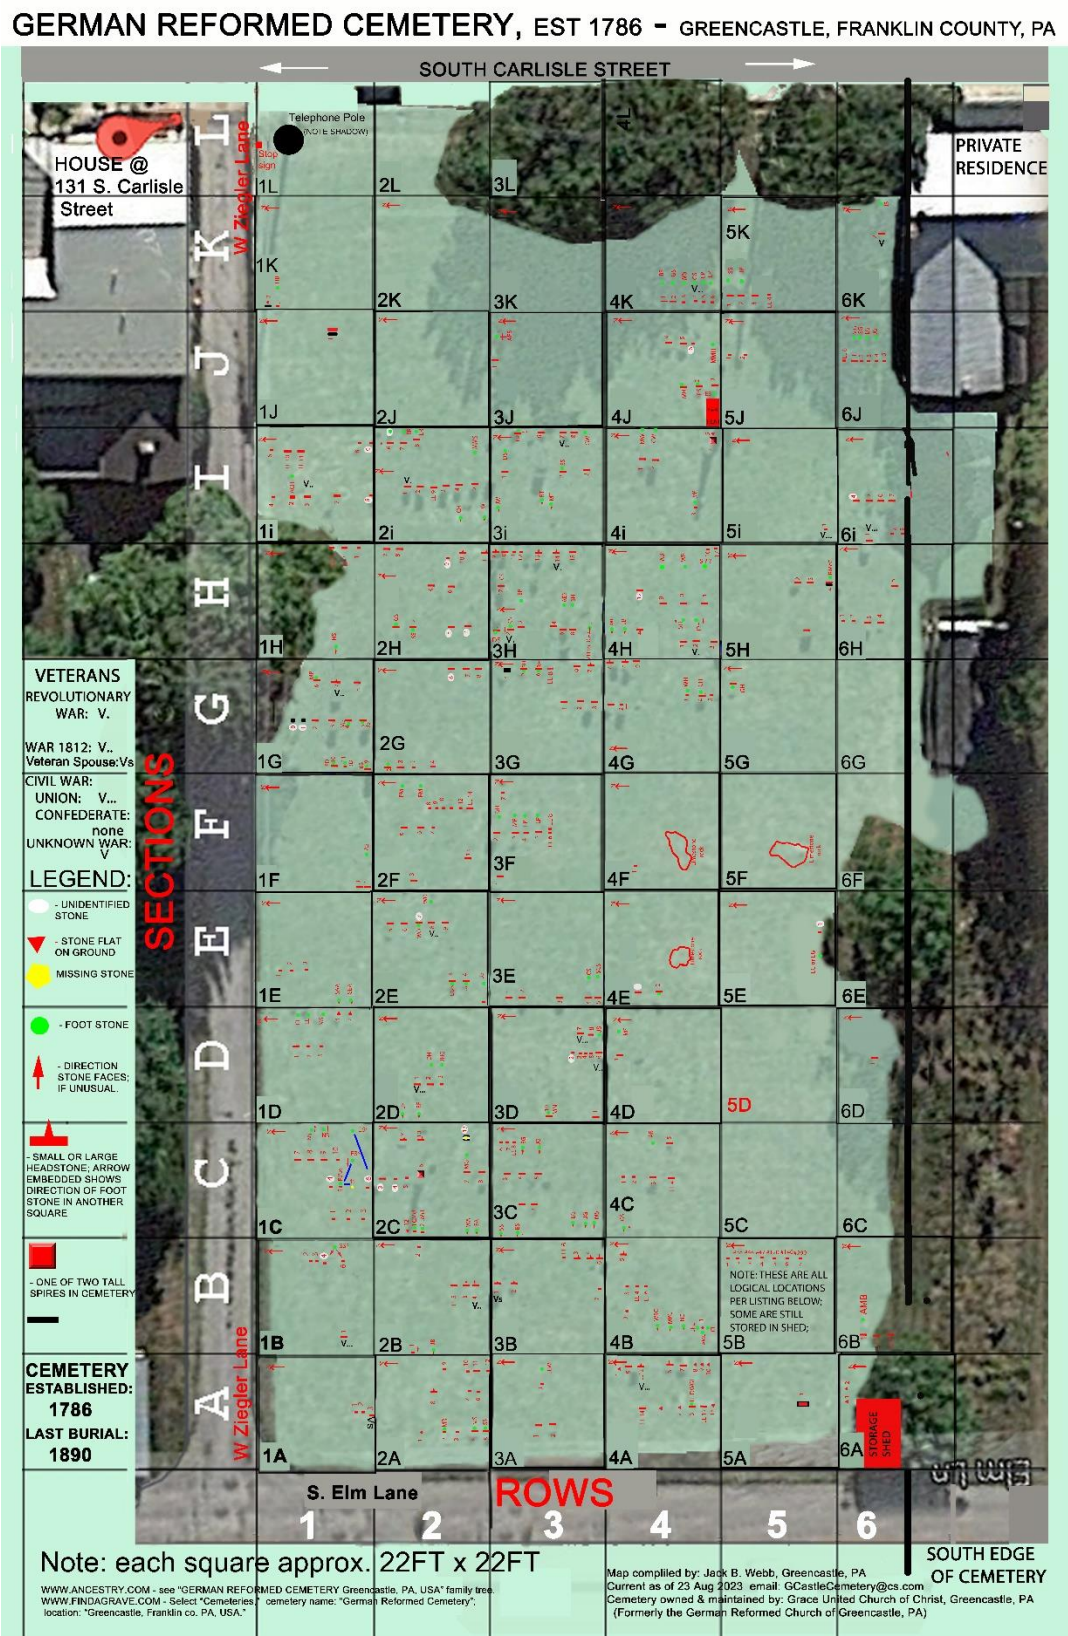

COMMUNION: 1877-1895

Note: *Most of the early missing records are from the first ministers: Rev. Weymer/Wierner 1770-1790 and Rev. Rahauer 1792-1817. The dates shown are when they lived in Hagerstown and were the pastor at Zion Reformed Church in Hagerstown AND listed as the minister in Greencastle. They were both traveling ministers visiting Greencastle as part of their charge. Hagerstown, MD is a good place to start the records search, but they also served St Paul’s in Clear Spring, MD; Mercersburg, PA; Chambersburg, PA; Grindstone Hill, PA; Funkstown, MD, Troxel’s, Besore’s, Millerstown, Emmitsburg, MD, and Apples Church, MD. However, after I reviewed the records at Zion Reformed in Hagerstown, all the records are in German, but they have no Greencastle names in them.*

Note: *A microfilm 382822 which has been digitized to 007516386 for Zion German Reformed Church and East Conococheague Church Records, 1818-1864 can be viewed on line by the Church of Jesus Christ of Latter-day Saints (LDS Church) website. However, we already have copies of this as Grace UCC Records 1818-1843; Baptismal records from Rev Scholl until retirement 1842/3. Most of the information on this file is for Hagerstown, MD but only a small portion is for Greencastle.*

Note: Col Allison 1782 lottery lot numbers shown:
 “G.R. Cemetery” (German Reformed) lots 201 and 202

Also note that the brick church has been removed from the Cemetery. It was removed in about 1855 after the new church (still in use in 2023) was built on Baltimore Street

Also note the north-south (Cumberland Valley Railroad) tracks were laid down railroad line in the middle of South Carlisle St. in 1830s and was moved west to the current “high line” location in 1908.

Note the tall spire in the left of the picture; marker **4i-4 Reverend Frederick Augustine Scholl**, and his wife Elizabeth; Minister for German Evangelical Reformed Zion's Church (today Grace UCC) 1818-1833; his first language was German.

SECTION III: Index of Names

with Locations of Headstones

S. Carlisle St., Greencastle, Franklin Co., PA

CEMETERY SIGN VIEWED FROM STREET

BACK OF CEMETERY SIGN:

SHOWS DATA LISTED ON THE FOLLOWING PAGES

LEGEND: “#” column: An arbitrary number has been assigned to each person, but the priority in this list is keeping it alphabetical, so some numbers are out of sequence. **“#RC”** (Reformed Church) is the number for graves in German Reformed Church Greencastle Records as “Ref Ch – Burial Ground”. (None of these RC headstones have been found!). **Red** indicates a **veteran** and a **Flag** at their grave. If “Grace” is shown, this is one of several stones found in the basement for Grace UCC (German Reformed) Church in 2022.

“Location” column: blank means the grave not found and may be one of stones not readable; **“shed”** indicates headstones that are stored in back of the Cemetery. **?** means weak proof due to condition of stone. **LL=** shows the logical location where stones has reburied; i.e., near parents or siblings, if possible; or author’s notes to facilitate finding ancestors. Headstone condition is also shown as upright braced, broken or lying flat on the ground.

“NAME” column: the Bold name as shown in Pflueger research; not bold: data from Church Records or Research. Also shows relationships to the person named, and where located if in this cemetery. If LL= is shown here with Shed in “location”; the stone has not yet been reburied.

2H-4	3D-2	3G-4*7	4E-1		4H-12	4J-6	5E-1	6i-4?	

Note: 320 people found and identified in the cemetery.

Note: 22 names were found by Pflueger's 1971 cemetery survey but those headstones cannot be identified today. This compares favorably with the 18 headstones above that cannot be read in the cemetery. Almost every year, new headstones are found under the grass, so the restoration continues.

***4 Note:** recent research and headstone placement: #312 **Peter Weyant** incorrectly shown on the location sign in the graveyard as in the Shed. His headstone was moved to beside his wife **Margaret** (6A-1) and since she was placed North to South; **Peter's** headstone was also placed North to South (at LL=6A-2). Both Headstones are flat and the wife **Margaret's** headstone was probably just dropped there. We found their grandson **ARRON MCCLELLAN BAKER** at 6B-1; therefore the grandparent's headstones will be moved to LL=6B-2&3 as there are only 3 **Weyant** family members' graves found in the cemetery.

***7: Note:** a block of fieldstone 3G-4, 3 inches rectangular about 16 inches above ground, no markings; is directly behind old slate headstone 3H-1 and a footstone in the shed w DS in same font at 3H-1. 3G-4 is not included in totals as it is just a black fieldstone.

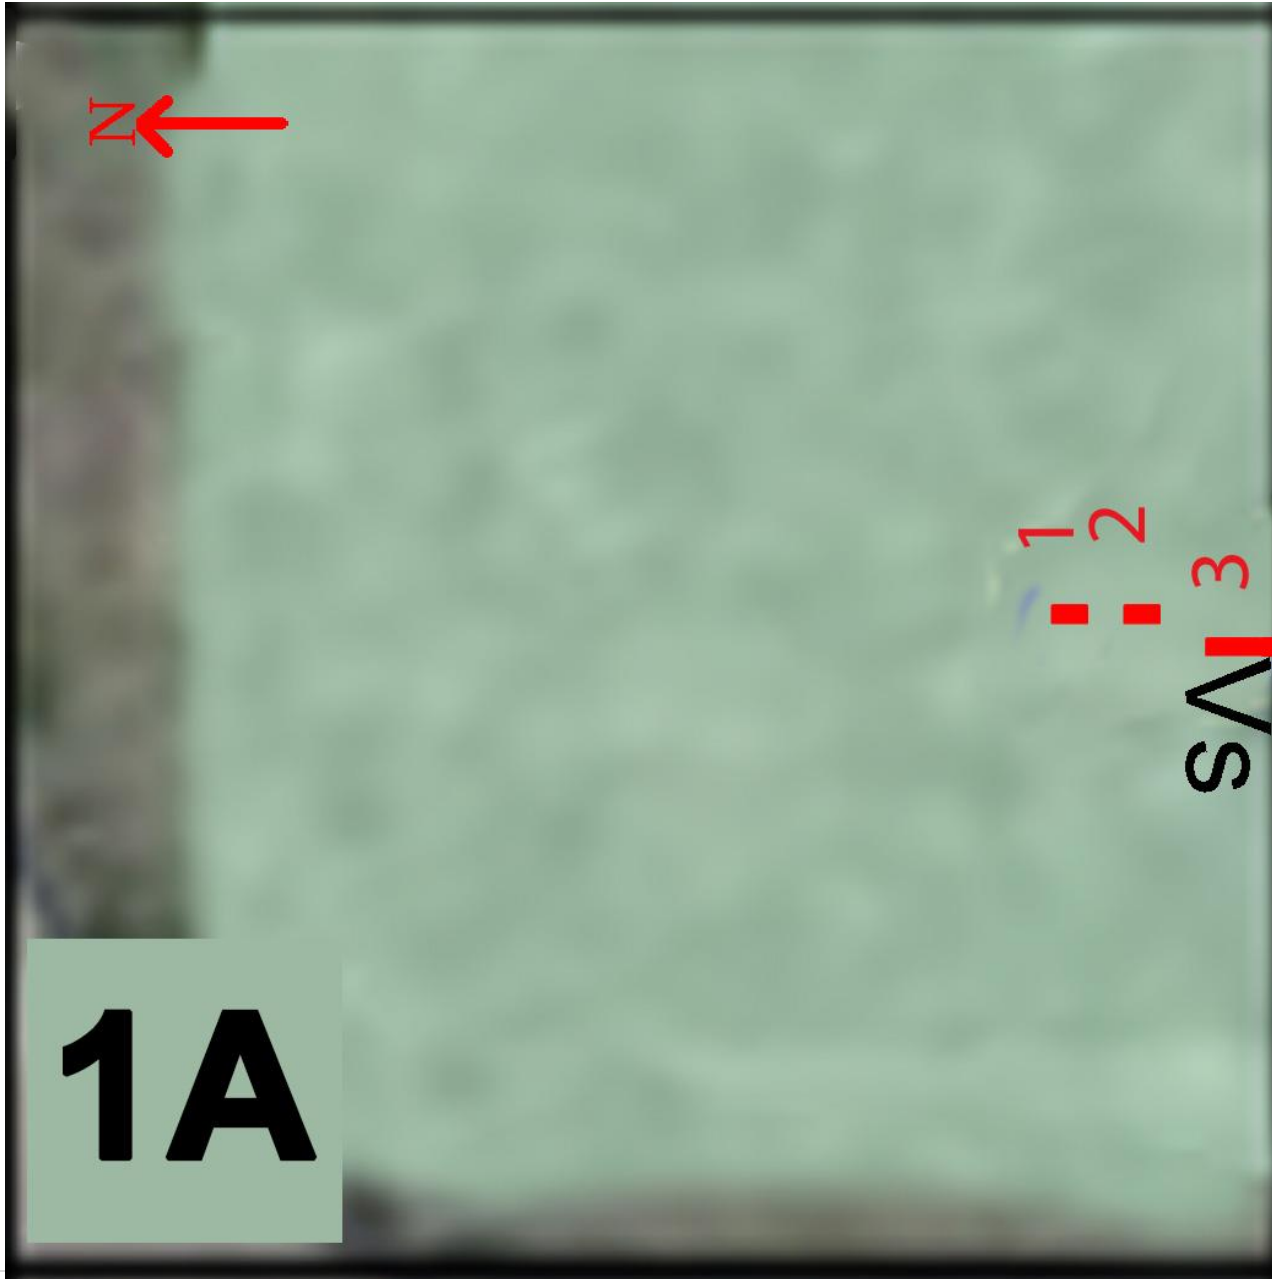

***8: Note:** 21 names (RC 1-21): These individuals have been found in church records (CR), each person has an entry in Sec VII-b; but the headstone has not been found. These 21 names researched in church records but none of them have been found in the cemetery and Pflueger did not find them either. None are at Cedar Hill Cemetery, the largest cemetery in Greencastle, as it only opened in 1870. More research needed, the confusion comes with the use of "Greencastle Cemetery" and the "Ref Ch burial ground" by Rev. Sykes.

1. **Possible conclusion:** THIS IS A DIFFICULT DECISION; HOWEVER, THE THREE FOOTSTONES es1, es2, es3 SAY “ES” AND, 1-c-4,5,6 ARE ALL THE SAME SHAPE AND SIZE AND CONSISTANCY; THE 3 HEADSTONES:MATCH IN DESIGN AND ARE OF THE SAME STONE; SO, I THINK THEY GO TOGETHER. NOTE: Location: Includes: Row, Section and gravestone number. If **Red** is used in the Location, Admin and Footnote column; this person is a veteran. **LL SHED** is the "logical location" for this headstone that is currently stored in the cemetery storeroom. **LL** without **shed** = headstone restored into cemetery.

Admin: Administrative information: **number** for grave; **P** if it has been photographed; **F** if there is a flag at the grave for a veteran.

Name: Name that has been researched is in **Black** and, if the stone has been found, what is read off the stone is written in **Red**.

Birth: birth date: **Red** if on stone; **Black** is a researched date. **CAL** or **abt** means it is a calculated: birth date = death date minus the age.

Death: date of death in **Red** has been observed from Grave inscription; **#** is the Find A Grave (FAG) website memorial number.

www.findagrave.com. (*Note: If the FAG # is in bold, it is controlled by this author; if not in bold, it is controlled by another person*). **P@** means Pictures have been added to FAG website.

Age: shown in years/months/days; **Red** if found on stone and **black** if not observed on the stone but found through research.

Footnotes: See the Master List (Section I) for letters/abbreviations.

Initials: person's initials and, if a footstone is present, the word "**footstone**" is listed with the person's initials in red..

Notes: *Notes in Green are the author's research and possible reading from stone.*

NOTE on Francis Pike: in the Book History of Franklin County it was noted that when the Confederate Troops marched thru Greencastle, Francis at the age of 84 stood in defiance, cursed them and offered to fight them right there in the street. He helped Union troops by chopping up the wagons of the Confederates. Then I found in Wikipedia, Greencastle PA - Civil War: After the Battle of Gettysburg, Lee's army began its retreat to Virginia on July 4 and 5. He sent John D. Imboden's cavalry to escort a large wagon train carrying Confederate wounded. The train, nearly 18 miles in length, wound its way through the streets of Greencastle, where a few men of the town attacked the wagon train with axes and hatchets. They succeeded in disabling several wagons before Confederate cavalry chased them away. Info provided by Linda Price.

John Binkley 1781-1851 was the youngest son (9th child) of his father Heinrich Binkley d 1805 Cocalico twp, Lancaster co, PA. Interesting too, is the fact that our German Reformed Cemetery is called the Old Reformed Cemetery in this book, see page 14 for a picture of the Binkley graves. Sadly, still no Barbara nee Walter's headstone picture.</p> <p>As to the name Binkley: <i>in CHS baptisms before 1821, Binkley has the name of Punctly followed by (Binkley); see birth of Daniel Punctly (Binkley) b 7 Sep 1816, I do not know where the name Punctly. By Samuel's birth, 10 Feb 1821, the name Punctly is dropped and only Binkley show.</i></p> <p>In reviewing the book above, it appears the Binkley's have gone through many names more than the Punctly. They came from Switzerland and the name Binggelis is shown in Bern Switzerland. After they moved to America; other names appeared: Bickel, Pingley, Pinkley, Pringle, Bingley, Binaackle. They were Swiss-German.</p>

MORE DATA FOR THE BINKLEY'S:

1. **Benjamin was the son of John and Barbara nee Dundor Binkley FAG#116582539; see Biography below: Benjamin “died in infancy and buried in the Old reformed Church Cemetery in Greencastle; However, his grave has not been found.**

.Biography (BIO): On Jan 11, 2017, Becky Stahl <fulopstahl@gmail.com> wrote: Hi Jack, Here is the Binkley info from Edward Lehman Binkley's book , "**The Generations of Henry and Eliza (Share) Binkley:**"

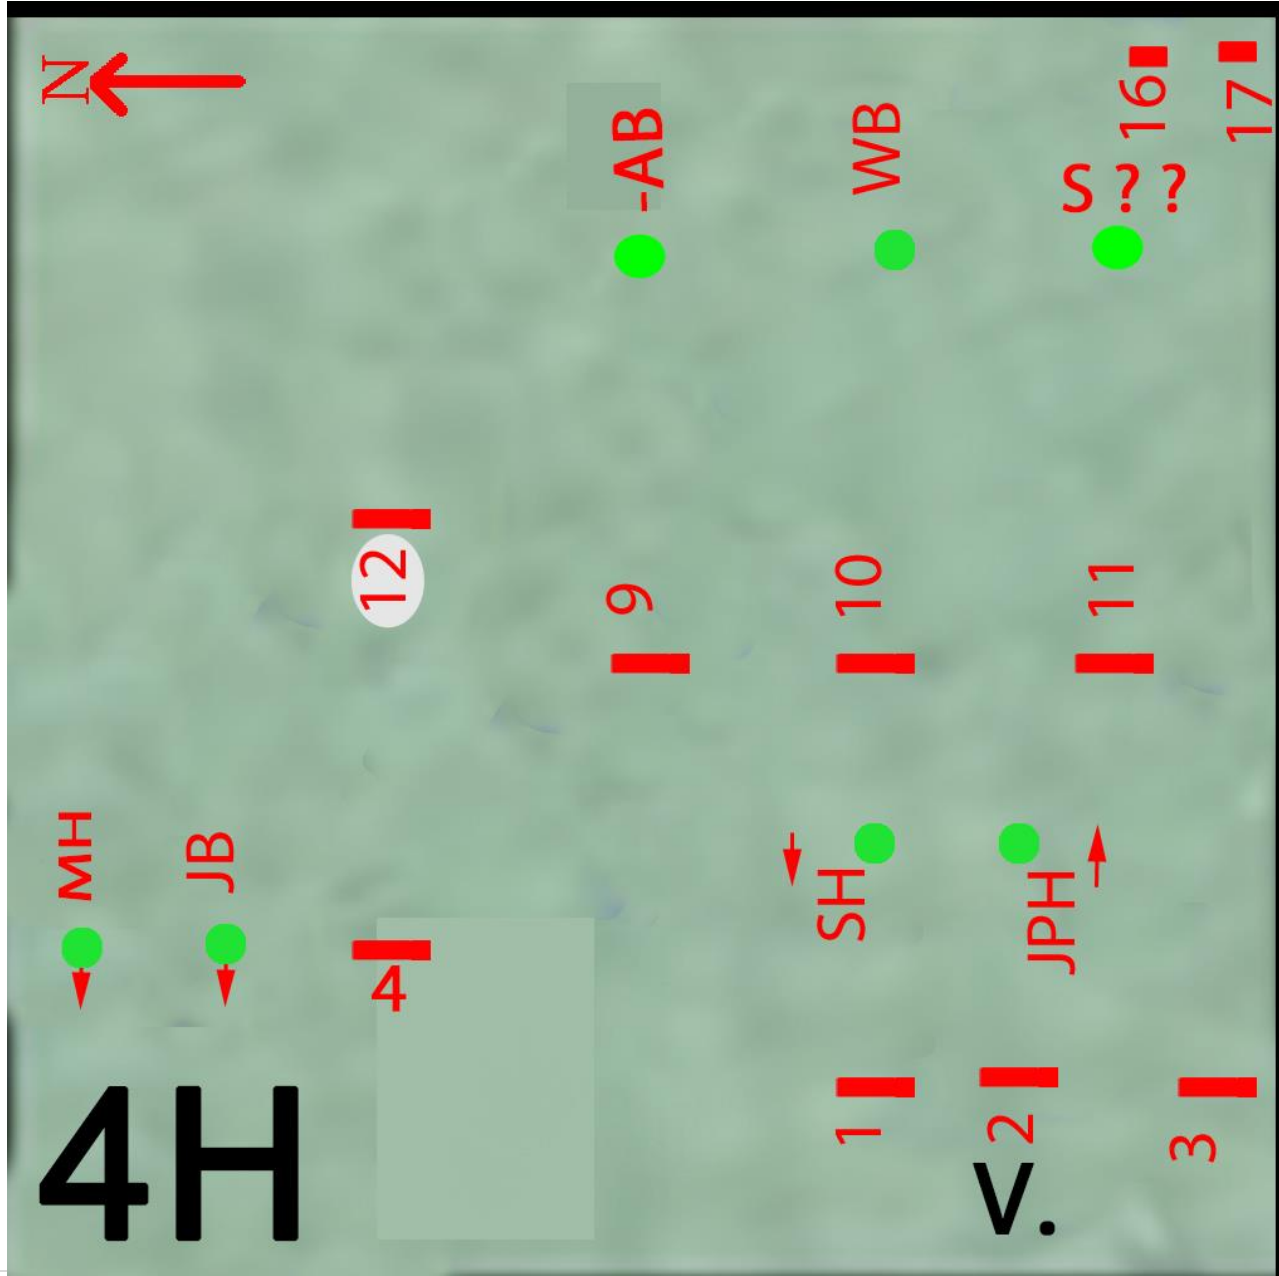

-**John Binkley [4G-8]** , youngest son of **Heinrich and Anna Maria Binkley**, was born in Lancaster County on December 26 1781. He was baptized at the Muddy Creek Church on January 20, 1782. He died December 29, 1851 at State Line, Franklin County, PA. He married **1st: Barbara nee Walter [2RC]** , daughter of Gerhard Walter of Cocalico Twp, & married **2nd: Barbara** nee Dundor **[4G-9]** born October 21, 1781, died November 1, 1854.

-John did not remain in Lancaster County. By 1810 he and his family were in Franklin Co PA, near the Maryland border. John had married **Barbara nee Walter** shortly before his father's death (in 1805), for on April 6, 1805, their **1st child, Henry (#52185604)**, was born, followed by **Anna Maria (4G-7)** on August 13, 1806, and John Jr (**#116583038 OH**) in 1809. (The baptisms of these children are in Swamp Reformed Church of Little Cocalico, Lancaster Co., Ohio) Elizabeth (**#58446614**) was born 30 Sep 1812

-**John** purchased land in Franklin Co. and the baptisms of their younger children appear in the records of the (**German**) Evangelical Reformed Church of Greencastle, PA, with the family name spelled Punctly.

-His **1st wife, Barbara nee Walter, died after the birth of their 5th child, Elizabeth, in 1812 (grave not found)**. He then married **Barbara nee Dundor** with whom he had six sons. **John 4G-8 died in 1851, Barbara nee Dundor 4G-9 in 1854.**

Note from the author “Jack”: Sadly, Benjamin and Barbara nee Walter (wife#1) graves have never been found in the Greencastle German Reformed cemetery, the only Reformed cemetery in the city. The Reformed Church of Greencastle has undergone many name changes over time, and today is the Grace United Church of Christ located in the same building that the congregation moved to after leaving the small church on the German Reformed Cemetery property.

Repair Notes: Both stones were stacked almost on top of each other, most of the stones were buried. I removed the stones, dug a foundation hole, and found the bases and a large missing piece of George's headstone. Jacob still is missing a two foot piece,

somewhere buried in the Cemetery, therefore his stone is shorter than George. Foundation was made with gravel, stone dust and stones and brick. The bases were added and then the headstones rebuilt.

John **Light**, Died Feb **12, 1842**, aged 63 years, 9
months and **11** Days.

Find a Grave Memorial: 176680522

Note: *this is a good example of determining who is in the grave. **Red** ink above is used to show what can be read off the headstone. Identification comes by comparing **Red** observed data to the **Black** Pflueger (1971) observations of gravestones in the Cemetery and other research records. If*

*enough data can be read, then the headstone can be identified. In this case, **Red** observed compared to the Pflueger **Black** leads directly to John Light and more researched data at grave location 5J-1.*

In 1875, Daniel Rupp wrote a genealogical review of his Rupp family and found over 1200 descendants which he put into a book published in 1875, the title A brief biographic memorial of Joh. Jonas Rupp and referenced location is shown above. The earliest relative was Jonas Rupp who had 9 children. Of importance to the German Reformed Cemetery is child #3 a daughter Maria Katherine 1762-1820 who married Conrad Weber/Weaver 1753-1819. There is confusion as to his last name and it could be Weber or Weaver. Conrad and his wife moved to Franklin County and had eleven children; Conrad and his wife and 9 of his children died in Antrim twp, Franklin county and were devoutly German Reformed! With this reporting, it is hard to deny that these folks are not our four Weavers burials in the Cemetery.

The parents graves cannot be found. Of the 9 children in Greencastle, 4 of them appear to be in our cemetery. However, Daniel Rupp's finding do not ways exactly agree to what is on our headstones. The most glaring error is that: according to Rupp, none of them had children; however, in my research, almost all of them had children. However, even with these errors, taking into account the limited research data available to Daniel Rupp, I believe Rupp is describing people in our graveyard; further research in modern day genealogy might gain more accuracy.

Interestingly, when researching German Reformed graves, I discovered that about 50 graves were moved from the German Reformed Cemetery to Cedar Hill Cemetery in Greencastle, most of them in the 1870s; see Section VI-d for a detailed list. However, the Weavers that were moved were:

11 May 1871	Weaver, Geo. C * (could be Weber)	5/7	E35		133
11 May 1871	Weaver, David (see Note 1) "	30	E35		133
11 May 1871	Weaver Charles "	-/8	E35		133
11 May 1871	Weaver, John "	47/4	E31		133
11 May 1871	Weaver, Martin (JR) * "	25/8	E31		133
11 May 1871	Weaver, Luella "	1/8	E31		133

Note 1: At Cedar Hill Cemetery space E35, there are two more Weavers; Hellen age 30 date 6Jun & John H. John H age 29 date 3 Dec 1872.

Note 2: Also be advised that only one of these names are included in the list of eleven children of Conrad. The one listed above was a child eight months, David. But Rupp stated Daniel said was born in 1798 and died young; in the graves moved, there is a David, but the data shows that he was age 30??? Three persons moved could have been descendants of the children of Conrad and Maria. More research is needed but research back in the early 1800s is exceedingly difficult. (CONTINUED NEXT PAGE)

As to the 4 adult Weavers/Webers - Rupps that are buried in the German Reformed cemetery(below In Red); (In BLUE the dates from Daniel Rupp's book); NF=Grave not found.

Note the first 3 above are definitely named as Weavers; and Weber name was not used. The other two used their married names on headstones.

Note: "D" reference is the Detrich Funeral Home records and "CAL" is the calculated date from Detrich info; death – age. Note Weaver death date for Mary vs Detrich!

But of more importance is the amount of information in Red in the Blue column of Ru[[data, which means these could very likely be the descendants of Jonas Rupp as listed in Daniel's book. There are many errors and discrepancies but there are many exact copies. It is not in the purview of this book to continue researching this family; however, if a descendant sees this data; they will certainly read this with interest.

SAMPLE STONE OF THE MANY STORED IN THE SHED AT THE REAR OF THE CEMETERY

Peter, Weyant, Born Aug 2, 1806, Died Dec 10, 1878, Aged 72 Years,

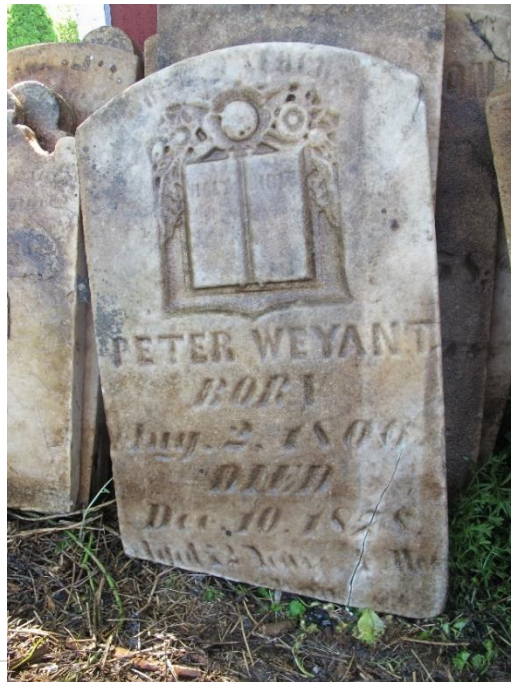

Stone Broken below "Aged 72 years".

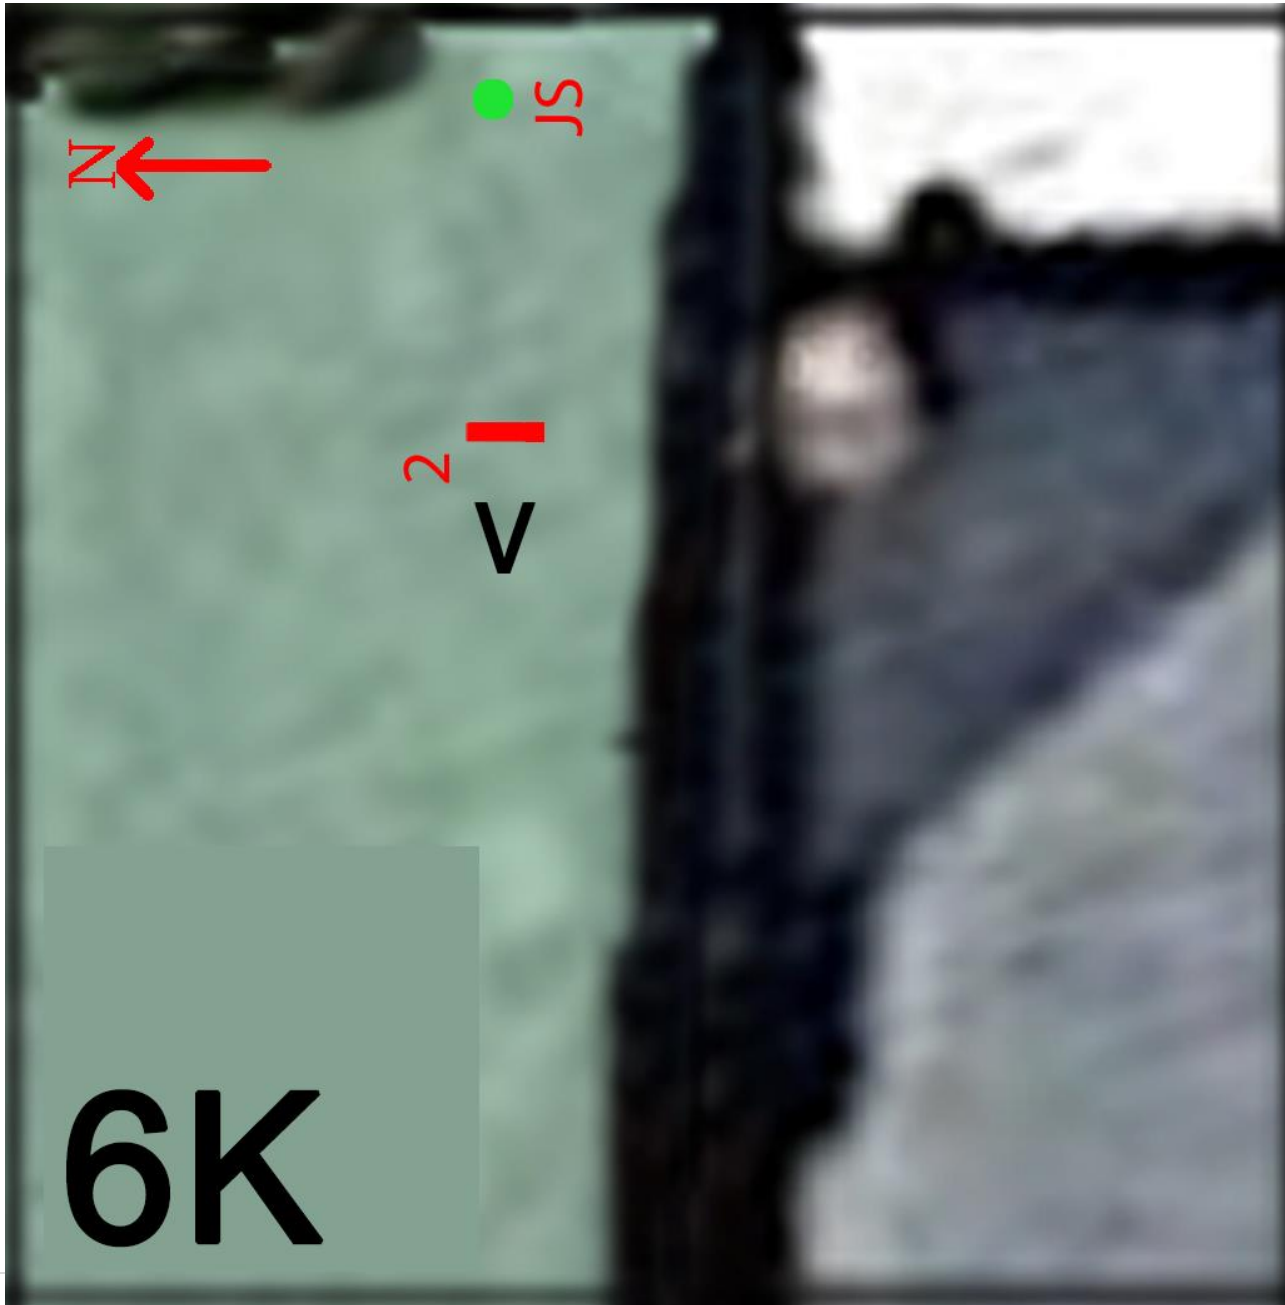

Find A Grave memorial: 17397995

Note: *Peter Weyant is listed as #312 in the Cemetery and has been moved from the storage shed to Logical Location (LL) 6A-2 near his wife Margaret at 6A-1 – both stones Flat on ground . However, their grandson ARRON MCCLELLAN BAKER is 6B-1; therefore LL=6B-2 & 3 for grandparents as there are only 3 Weyants in the cemetery.*

As above, if a stone in the shed has relatives, we will rebury the stone near them; however, if there are no known relatives in the Cemetery, those stones will be placed in Row 5, Section B. In this case, the logical location for all the Weyants' 6B.

Note *also that Peter's stone is broken off at the base, as can be seen by the diagonal bottom of the stone. Therefore, there must be another part to this headstone to join it to a slab type stone or a base.*

Note: All Veterans (18) buried in the German Reformed Cemetery are honored with an American flag (F) on their headstones and with a metal veterans marker. The Franklin County Veterans Affairs Office donated the Revolutionary and Civil War markers. The Greencastle American Legion Post 373 donated the War of 1812 markers and continues to provide the American flags. Also, there are American flags placed beside (7) headstones of women buried here, whose veteran husbands are buried elsewhere.

SECTION VI: STONES IN STORAGE, UNIDENTIFIED STONES AND FLAT STONES

SECTION VI-a: HEADSTONES & FOOTSTONES IN STORAGE

Note these headstones are stored in the Shed at the back of the property until they can be properly installed in the Cemetery. Of course, there is no way to determine where these graves were actually located, therefore the new location of the found headstones will be beside relatives, if any in the Cemetery. Stones with “*shed” in Column 2 are the ones that Pflueger listed as stacked in the back of the cemetery in 1977 and have been found. LL= shows the “Logical Location” where they will be or have been reburied/erected closest to nearest relatives or, if no relatives, in square 5B near the shed at the back of the Cemetery. The stones below are also shown in this book at the Logical Location row and sections where they will eventually be placed.

HEADSTONES IN SHED: 20 (See the map, next page, that shows how these stones are stored in the shed.)

Note also: Best guess shows of headstones that are a SLAB and those needing a BASE; with dimensions.

ANOTHER PROJECT: Note: *From the stones listed with a *shed in Section VI-a: these stones were stored/buried in the ground to the south of the small shed at the back of the cemetery. A large tree grows where the stones were buried. This was done before 1971 when Pflueger surveyed the cemetery. Obviously someone wanted to clean up the cemetery of fallen stones and remove footstones that were blocking convenient grass cutting.*

*I pulled all *shed stones out and cleaned them and put them in the small shed. I have always thought that we need to dig deeper and look for more stones encased in roots of that tree. Now that I see so many names without headstones; a revisit to the burial site of the stones would be worthwhile. A point of interest are the many flat stones at the rear of the cemetery; I found one flat stone in the back and it fit a stump in the middle of the cemetery; therefore, for some reason, the person stacking the stones kept some out to lay flat at the back of the cemetery. Margaret Weyant is another good example: I removed her husband from the shed and placed him beside her; they are buried East-West which leads to my skepticism that there is an actual grave UNDER THEIR CURRENT HEADSTONES..*

SECTION VIII: Chronological History of the German Reformed Church and List of its Ministers since 1770.

1748: Rev. Michael Schlatter, b: Switzerland 1716; d: Philadelphia, 1790. The first mention of the German Reformed Church in the Conococheague Settlement, now known as Greencastle, was in 1748 when Rev. Schlatter was preaching and resting at the Swiss born Jacob Snively's house, two miles to the west of the current Greencastle. Rev Schlatter organized the German Reformed Church in Pennsylvania. After visiting Conococheague Settlement by horseback and trails twice, he went back to Europe and brought back Rev Theodore Frankenfield to take over Frederick, Md church duties. Rev Frankenfield stated he would eventually have to include Conococheague, but Rev Frankenfield died in 1856. Next, help came from Rev John Conrad Bucher, but he was an itinerant preacher and visits were infrequent. By 1770, the European elders knew they had to act and they sent Rev Weymer to Hagerstown and as a traveling minister to Greencastle and elsewhere in MD and PA. Rev Schlatter was buried in Philadelphia in 1770. See Ref 26 for Life of Michael Schlatter. From Charles Hartman's diary (Ref #25), Rev Schlatter preached in the old log church at the lower (west) end of the Cemetery. (Ref 25, p4) See Sec VII-b #8RC Hartman for more of a discussion of the Charles Hartman diary.. (Sorry, this a short history and does not do credit to the history books, but we did find three ministers for our Church in Conococheague Settlement, currently Greencastle.

Notes on Change 2, 28 Sept 2023

Change 2 will be given to all holders of this document (print and/or digital) as shown in the Distribution Section XI. Change 2 adds more names found in church documents and adds the names of individuals that were removed from the “Reformed” cemetery and moved to the Cedar Hill Cemetery, Greencastle, PA. It also adds new headstones that were found and shows the repaired stones. This change is a complete rewrite of the book; therefore, no change markers have been included. An updated index is included in Change 2. The most significant change is that almost each person buried in our Cemetery now has a genealogy of themselves for descendants interest.

The name sign added behind the Greencastle Reformed Cemetery sign on South Carlisle Street will be updated in the near future.

With the completion of Change 2, the documentation portion of the Cemetery restoration is almost complete. Now is the time to continue with restoration of the headstones themselves; i.e., foundations, straightening and cleaning. We will also turn towards public relations with an eye on ensuring that all realize the German Reformed Cemetery is not only an important treasure and resting place of our ancestors but a historical landmark for our Community. A big thank you to the Grace United Church of Christ for their support and generous contribution to this project.

Jack Webb, Greencastle

Notes on Change 1, 1 Feb 2019

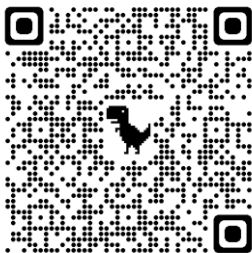

This change was primarily required to publish an INDEX of all names in this Change 1 and the Original Cemetery book dated 28 Sep 2018. Change 1 was of limited distribution.

LAST MINUTE ADDITION TO ASSIST RESEARCHERS OF THE GERMAN REFORMED CEMETERY, GREENCASTLE.

As discussed in Section I, the good news is that this book is most easily viewed online at: <http://www.graceuccgreencastle.com/>. Look at the top of the page; click on: "OUR RICH HISTORY" next, click on "German Reformed Cemetery." Next the German Reformed Cemetery page opens, and it brings you to a paragraph: **GERMAN REFORMED CEMETERY book**, **CLICK BELOW:** "[GERMAN REFORMED CEMETERY, EST 1786, s. Carlisle St., Greencastle, Franklin County, PA; Tombstone Inscriptions, Locations of Graves & research of all Internments.](#)" Once you click the **Blue** words, you will download the entire book. It is best to be used on your laptop computer as there is a lot of data.

**FOR RESEARCHERS WHO WOULD LIKE MORE INFORMATION
DOWNLOADED TO YOUR MOBILE PHONE:**

For you mobile phone users: these two QR codes (Quick Reference) to take you to the [Find A Grave website](#) for the German Reformed Cemetery. The first QR code will take you to our Cemetery **search** site. When you scroll down, you will see every grave in the cemetery. The second QR code will take you directly to the **map** of the cemetery which will be invaluable when visiting here and searching for a particular grave.

Find A Grave QR code for
German Reformed Cemetery
Greencastle, PA to **search graves**

On the left is the QR Code for the Find A Grave web page that includes all the graves in the German Reformed Cemetery with data about each person interred. Once you open the document

using your phone camera to capture the QR code, you will arrive at a **search page**, and you can scroll through all the names or just search for the ancestor you want. When searching, don't put in too much information to start; just the last name, or part of it, and search. The book has more research data.

Find A Grave German Reformed
Cemetery, Greencastle, PA for
your own **Map** of the cemetery

This QR Code on the left will get you to our **cemetery map** on the Find A grave website. When you use your camera to capture this QR code, it will take you to the **Cemetery page** for our German Reformed Cemetery. Scroll down the photographs and signs, and the final picture is a map of the Cemetery that you can download and enlarge to find individual graves on your next visit.
